PROJECTS

- Hostel Management System** | *HTML, CSS, Java Script* | [GithubRepo](#) Aug' 26
- Comprehensive Hotel Management: A centralized web-based platform designed to simplify hotel operations and provide users with an organized interface for managing hotel-related activities.
 - Interactive Booking Experience: Provides an intuitive and responsive interface that allows users to explore hotel services, view available options, and interact with the booking system efficiently.
 - Responsive & User-Friendly Design: Developed a clean and responsive interface using HTML, CSS, and JavaScript, ensuring an engaging user experience across different screen sizes.
 - Dynamic Web Functionality: Implemented JavaScript-based interactive features to make the website more dynamic and improve user interaction.
- Interview Ai** | *Java Script, CSS, HTML* | [GithubRepo](#) Aug' 26
- Comprehensive Interview Preparation Platform: A centralized web-based platform that helps users prepare for technical and HR interviews through categorized questions, mock interviews, quizzes, and performance tracking.
 - Interactive Practice Environment: Provides users with a dynamic practice experience featuring multiple-choice questions, difficulty-based filtering, timed quizzes, instant feedback, and detailed answer explanations.
 - AI-Style Performance Analysis: Implements JavaScript-based evaluation to analyze user responses, calculate scores, identify weak topics, and provide personalized recommendations for improving interview performance.
 - Personalized Progress Dashboard: Features an interactive dashboard displaying interview readiness, accuracy, average scores, solved questions, mock interview history, and performance analytics using dynamically updated data.

CERTIFICATES

- [Introduction To Python](#) | Infosys Feb' 26
- [C-language](#) | NeoColab May' 26
- [Introduction to Programming I](#) | Saylor Academy Feb' 26
- [SQL\(Basic\)](#) | Hacker Rank Aug' 26
